

Backyard ADVENTURES

your backyard...their adventure

Playsets Catalog

Welcome to Backyard Adventures

Thank you for including Backyard Adventures in your swing set search! As you browse the catalog, you will find the very priorities all parents hold dear – safety features, durable construction, a variety of accessories and configurations, and the highest innovative value.

Our catalog presents many amazing swing set designs, but we could never show every potential, custom swing set design in a catalog. We encourage you to visit your local Backyard Adventures dealer where knowledgeable playset designers will work with you to customize the system that's right for your family, your budget, and your backyard.

Your local dealer will learn about your yard and provide many swing set options designed to work with your unique landscape, always keeping in mind the need for a safe play space. Many dealers will even visit your home to take measurements and help you pick the right spot! Once you've selected your new play system, your dealer will schedule a convenient time to assemble your playset right in your backyard.

Our innovative products, combined with installation and service from your local dealer, guarantee a memorable shopping experience. We know your time is valuable, so you'll find it easy to shop for a Backyard Adventures swing set. Our goal is to make designing a playset as simple as possible, without compromising quality.

At Backyard Adventures, we specialize in FUN! Everything we do is focused on providing healthy fun for your family. Running, swinging, climbing, and jumping all build physical skills that improve endurance and develop coordination. Social play helps children develop decision making skills and build self-confidence. In addition, outdoor play improves your child's health and helps reduce the risk of childhood obesity. At Backyard Adventures we know that imaginative play is a child's work, and we build wooden playsets that stimulate learning and creativity. As you consider our variety of swing set options, we know you'll be satisfied for years to come with the Backyard Adventures playset you choose.

Treehouse and Peak swing sets are constructed with the highest quality, premium materials and rigorous engineering standards so you and your children can play together. Our unmatched construction, with our industry leading limited-lifetime warranty, guarantees your family a memorable play experience.

Treehouse swing sets are the most modular, most customizable playsets available. Every Treehouse is intended to be unique for your family's specific needs, which makes a Treehouse playset perfect for a family with children of any age. The multi-level fort design provides safe play for both younger and older children in the same play system.

Peak swing sets come standard with our most popular rock wall and other climbing accessories, and their unique angled structure design creates a safe place for the ever-popular tire swivel swing. Peak playsets never compromise on quality and are better suited for many un-level yard settings.

Summit Outlook swing sets are the best value play systems we have ever made! Summit Outlook playsets are engineered for children of all ages and are the highest quality playsets in their price range. No other manufacturer leads with this combination of quality and innovation.

Outlook swing sets are highly modular and very customizable while also being most budget friendly. The Outlook forts are designed with two different deck sizes, three different deck heights, and a variety of accessories to create a personalized play experience.

Summit swing sets are rock solid with high quality construction. Summit playsets include our most popular features like rock walls, tire swivel swings, and rope ladders in a variety of modular sizes and heights.

All New Best of Backyard Adventures!

1. **Wood** – Backyard Adventures uses all cedar wood, a premium lumber for outdoor use. Our cedar is free of toxic chemicals and certified to meet and exceed all ASTM standards for playset construction materials. Our lumber suppliers practice sustainable forestry to ensure long-term renew-ability and a healthy environment. Our cedar is superior in strength and durability so your playset will last longer. Cedar is naturally resistant to bug infestation, rot, and decay.

2. **Flex walls** – Our flex walls represent Backyard Adventures' commitment to innovation and simplicity. Now you can easily add accessories anytime by simply removing a flex wall panel to create an activity zone.

3. **Bi-directional bolt through construction** – The key structure joints on our playsets are secured with cross-directional, bolt through construction. This means bolts secure the main structure supports to the uprights in both directions. Our swing set frames are essentially compressing the floor supports into the structural timbers in all directions. Our unique engineering design ensures your playset will be exceptionally strong, safe, and long-lasting.

4. **Steel brackets** – We also use a variety of custom steel, powder-coated brackets to add additional strength and support to our superior fort structures.

5. **Floors** – Our playset floors are built just like your house! The floor joists, shear hangers, and recessed floor design create a solid footing. There is no flexing in our more rigid floor construction, ensuring safe play for years to come.

6. **Steel swing supports** – The steel top plate and side strips are additional safety features against board failure. At Backyard Adventures, your family's safety is always our top priority.

7. **Thick chains** – Our exclusive ¾" powder-coated chains are noticeably thicker and stronger.

8. **Safe slides** – Our exclusive Rocket Slide is intelligently designed with high side walls and a safe exit so even your younger children can slide with confidence.

9. **Marine rope (no splintering)** – Our rope is marine grade for outdoor use. It does not splinter like cheaper ropes so little hands always have a secure, soft grip.

10. **Adjustable height swing beams, monkey bars, and forts** – Our playsets are designed for relatively un-level backyards. We offer many features that adjust to fit the unique contours of your landscape.

11. **Heavy duty swing hangers** – Our commercial grade ductile swing hangers are the strongest swing hangers used on backyard playsets.

12. **High quality stain** – Our premium stain enhances the natural beauty of cedar and protects it from the elements. We use a unique, two-toned stain on most of our swing sets to enhance the beauty of your backyard landscape.

13. **Safety grip chains** – The chains on our belt swings and infant swings are specifically designed for smaller hands with a comfortable rubber coating.

14. **Quarry Climbers** – These incredible rock climbing holds were hand sculpted by professional rock climbers. Quarry Climbers can be rotated to change the climbing experience as your children get older.

15. **Arched walls** – Arched walls make entering a playset easier and create a safer play area by not leaving our forts wide open.

16. **Flat ladder steps and handrails** – All ladders are standard with flat steps and handrails. This is always the safest way into a fort structure for children of all ages.

• **Grab handles** – Grab handles are strategically placed around the playset to ensure a safe play experience for your children.

• **Dealer service** – Your local dealer is the most valuable asset when choosing a playset for your family. Their friendly staff members are product experts, trained to teach you the most relevant information about selecting a backyard playset. Visiting a dealer is fun for the whole family, so take your kids and experience all Backyard Adventures has to offer.

• **Modular designs** – Backyard Adventures playsets are the most modular designs available. Visit your local dealer showroom to create a customized playset that's perfect for your family, backyard, and budget.

• **Best warranty** – Backyard Adventures warranties lead the industry in providing total customer satisfaction. We stand behind every playset we put our name on so you can be confident in your choice to own a Backyard Adventures playset. Be sure to ask about our limited lifetime warranty.

• **Space savers** – Our space saving playsets and features create the most play value in small spaces. Ask your local dealer to design a space saving playset for your side yard or corner play space.

Backyard ADVENTURES

NEW Treehouse Peak Series

We've been designing and building Treehouse and Peak swing sets for over 35 years, since the very beginning of Backyard Adventures. Treehouse Peak playsets have been enjoyed by hundreds of thousands of children helping them create the most joyful childhood memories. We are most excited to introduce our latest Treehouse Peak product line with the highest quality construction, superior engineering design, unlimited customizability, and of course our industry leading limited lifetime warranty.

Treehouse Peak swing sets are our premium line of backyard play systems. They are the largest, tallest, most versatile playset designs ever made for the best backyards. The product line includes three different deck sizes, four different deck heights, and the ability to accommodate all types and sizes of scoop slides, tube slides, and open spiral slides. You simply can't find a higher quality, better designed, fully customizable wooden swing set anywhere else.

- Most modular design
- Tarp and Wood Roof options
- Highest quality construction
- Square base and angled base fort designs
- Multi-level vertical and angled upright hybrid designs
- Deck heights: 5', 6', 7', and 9'
- Swing heights: 9' and 10'
- Slide lengths: 10', 12', and 14'

The all new, completely re-designed Treehouse style swing sets include an improved structural design with bi-directional bolt through construction, increased modularity, and many new play features. You can attach the new pergola to any Treehouse fort to create the perfect backyard play and relaxing space. The pergola is designed to stand alone or include a built-in picnic table... your choice! Playhouse and cabin enclosure doors are much taller for older children, and the new hybrid playset design combines the best of all playsets into a single play system.

Peak style swing sets are huge with XL (over 28 sq ft of play space per deck) and Jumbo (almost 42 sq ft of play space per deck) versions for any size backyard. Peak playsets are also constructed with bi-directional bolt through hardware connections, steel brackets at the main structure joints, and lots of customizing options. Peak forts are the strongest playsets with 4" x 6" timbers and a rock-solid angle base design.

Treehouse Peak playsets have many aesthetic upgrades with beautiful two-tone stain, textured powder-coated steel components, two-tone roofline trims, decorative gables and rafter tails, and lots of detail in window and door features. The unique wrap-around porch, upgraded Adventure Bridge, and improved overall value make this the best Treehouse Peak swing set series every created. We invite you to explore our Treehouse Peak swing sets at your local Backyard Adventures dealer, online at www.backyardadventures.com, or just give us a call.

All New Pergola, Ultimate Climber, Loft XL, and Loft Porch

The new Treehouse pergola and optional side table introduce an entirely new category of accessories for wooden swing sets. Who doesn't like to play and relax in the backyard? With the pergola addition to any Backyard Adventures Treehouse playset, you and your children can play and relax with a little added shade for those hot summer days. The pergola can stand alone, or you can add the new side table under your pergola for picnics, playing games, or just doing homework outside. If you already have plenty of shade, the side table is available by itself for a perfect backyard picnic setting. The two-toned stain creates an aesthetically pleasing addition to your backyard play, and relaxing, oasis.

The Ultimate Climber is a popular accessory on our Summit Outlook swing sets, and you can add the same 6.5' high Ultimate Climber monkey bar system to any 6' high Treehouse or Peak fort. And with our new 7' high Titan Treehouse and Peak playsets, you can add the upgraded 8.5' high Ultimate Climber monkey bar. This is one of the greatest value additions we've ever created because now your backyard swing set can include a challenging, strength building play feature for teenagers. The days of thinking a backyard wooden swing set is just for younger children are over. Children, teenagers, and parents alike can play, challenge each other, or do strength training on the upgraded 8.5' tall Ultimate Climber.

The Loft XL and the Loft Porch have been upgraded with a premium roof style for Treehouse and Peak swing sets. These two amazing fort upgrades sit on top of the Ultimate Climber and provide a 7' deck height (on the 6.5' Ultimate Climber) or a 9' deck height (on the 8.5' Ultimate Climber). You can add additional scoop slides, tube slides, open spiral slides, and even a 7' high rock wall to the Loft XL and Loft Porch (rock wall not available for Loft Porch) or turn the Loft XL into a cabin with doors opening into the Loft Porch. There are so many options for unlimited backyard fun!

- Playhouse Window Wall
- 6' Fireman's Pole

Exclusive Hybrid Playsets

Wooden swing sets have been designed in a variety of styles for a long time, and the two most popular styles include fort structures with square bases or angled bases. Customers seem to prefer these two playset designs since they provide the best overall value. However, there are some limitations to each style of playset. For example, you cannot add a picnic table or lower playhouse to angled base forts, and you cannot safely add a tire swivel swing to a square base fort.

This is why Backyard Adventures created the totally unique hybrid style playset. Our hybrid fort structures combine the square base and angled base designs into one play structure so your family can have it all! We offer hybrid swing set designs in many different sizes, deck heights, and accessories combinations. Your local Backyard Adventures dealer is an expert in creating hybrid swing sets to maximize play value. We invite you to visit your local dealer store or check out our playset designer at design.backyardadventures.com.

Unique Wrap Around Porch

We have designed many wooden playsets in the past 37 years, but occasionally we come up with something that gets everyone excited. The all-new wrap around porch style Treehouse swing sets are one of our best ever backyard playset creations.

Our modular swing set design now includes the option to wrap a porch around the outside of a fort structure. The wrap around porch can attach to two, three, or all four sides of a Treehouse XL fort. Wrap around porches are created by combining Treehouse balconies with corner decks for a whole new dimension of play. The corner deck sits at a 45 degree angle to the main fort structure and has two flex wall openings for accessories like slides and gang planks. In many backyard layouts, using a corner deck to direct long slides into the corner of your backyard will reduce the overall space requirements for large play structures.

We created a few pre-designed wrap around porch playsets to help you get started, but there is no limit to what you can create with our customizable, wrap around porch wooden swing sets.

All New Adventure Bridge

Our Adventure Bridge has been around for a long time and is used to create the most elaborate combo playsets ever designed for backyards. A bridge connects two fort structures of the same deck height and turns them into a large combo playset. You can use an unlimited number of Adventure Bridges to connect as many Treehouse or Peak playsets together as you want.

The new Adventure Bridge is huge and becomes a play center in and of itself. With almost 37 sq ft of play space on the bridge deck, it can be the command center for your child's pirate ship or the outdoor observatory for your future Astronaut. We also kept the six opening, flex wall design on the new Adventure Bridge so you can attach slides, rock walls, fireman's poles, gang planks, and other accessories to the bridge. Additionally, you can attach a tire swivel swing under any Adventure Bridge.

There's no limit to the ultimate backyard playset with the Adventure Bridge. Two of our favorite expert tips for designing the best backyard swing set are to use a combination of hybrid style forts with Adventure Bridges and/or use Treehouse and Peak base forts with Adventure Bridges. If you want a truly unique playset that's hard to duplicate, try using both design tips to create a mega backyard playset!

NEW Space Savers!

Space Saver playsets pack as much play value as possible into the smallest spaces without compromising quality and value. We have traditionally offered Treehouse space saver designs in 5' deck heights, but we are now excited to introduce our new 6' high deck space saver swing sets in both Treehouse and Peak styles.

Our original space saver is the Free-Standing Swing Beam. This swing set has an 8' high swing beam with room for three, single-person swing accessories. Many families do not have enough backyard space for the traditional fort and swing beam combination. With the Free-Standing Swing Beam, you can install a space saver fort with climbing and sliding accessories in one part of your backyard, then add a space saver swing beam to a different part of your yard. You don't have to give up important play features just because your backyard is not big enough for a traditional fort with attached swing beam.

Olympian Treehouse XL (6' deck height) space savers include our two-position accessory arm designed to hold two, single-person swing accessories. You can also add picnic tables, rock walls, and other climbing options to Olympian Treehouse XL space savers without needing additional play area space.

Olympian Peak XL space savers have even more built-in play features in a relatively small space. They include the tire swivel swing, rock wall, combo ladder with flat steps and z-bars, a rope ladder, and room for two, single-person swing accessories. Our variety of available slides can help save even more space over traditional playset designs.

Summit Outlook Series

Can I have your attention please! Calling all moms and dads, we have some really BIC news...Would you like to customize a playset without breaking the bank? Would you like to choose each play feature for your children, not compromise on quality, and still have money left over for that much needed family vacation? If so, this unique line of high-quality playsets is exactly what you've been looking for.

We are proud to introduce the totally innovative Summit Outlook Series. There's truly nothing like it in all the world of playsets! With two deck sizes, two deck heights, two swing beam heights, multi-deck configurations, lots of fun accessories, and a beautiful new color palette, Summit Outlook play systems are the new standard in low and mid-priced specialty playsets.

We have spent years developing this playset line, and as a result we are confident Summit Outlook Series is the best value available. You may first notice the new color palette of light brown and mahogany colored stains that give these playsets a rich look, but there's even more. The unique hybrid style option lets you design playsets with both a lower playhouse and a tire swivel swing in the same structure. You can't find this innovative value anywhere else!

- Modular design
- Tarp and Wood Roof options
- High quality construction
- Square base and angled base fort designs
- Multi-level vertical and angled upright hybrid designs
- Deck heights: 5', 6', and 7'
- Swing heights 8' and 9'
- Slide lengths 10' and 12'

We know what matters most to you. We understand the value of your time, the fact that each family is unique, and that one size does not fit all for your backyard, your family, and your budget. As you shop for a backyard playset, we encourage you to pay close attention to every construction, design, and quality detail. With so many value playsets that all look the same, you'll see clearly how we stand apart. We look forward to sharing our Summit Outlook playsets with your family.

Best of Summit Outlook Series

The Ultimate Climber may just be the coolest, most exciting, and challenging monkey bars system ever created. We loaded this double-wide monkey bar with all kinds of strength, dexterity, and climbing features designed to help children be healthy and succeed at new challenges.

The Ultimate Climber includes two sets of monkey bars supported by ultra-strong 4x6 timbers. One side of the monkey bars is a traditional flat rung style and the other side is our new wave climber featuring an up and down climbing experience. There are lots of hand-over-hand sliding bars and grips, a chin-up bar, cliff hanger grips, swinging gym rings and trapeze bar, and the all-new hanging ball grips. Ball grips are movable and create unlimited combinations of hand-to-hand swinging rope challenges. Cliff hanger grips challenge even the strongest children with many expert level climbing transitions. And of course, the Ultimate Climber wouldn't be complete without a built-in fireman's pole for extra fun and a safe dismount.

Summit Outlook Ultimate Climber

The Summit Outlook Ultimate Climber stands 6.5' off the ground and attaches to any Summit or Outlook fort structure. The incredible value of our totally unique, industry leading ultimate climber keeps getting better when you pair it with a new Loft and Loft Porch!

Summit Outlook Ultimate Climber, Loft XL, Cabin Package, and Loft Porch

The Summit Outlook Ultimate Climber stands 6.5' off the ground and attaches to any Summit or Outlook fort structure. The incredible value of our totally unique, industry leading ultimate climber keeps getting better when you pair it with a new Loft and Loft Porch!

Summit Outlook Loft XL

The Loft XL is a 5' x 5' play space on top of the ultimate climber. The deck stands 7' tall, so our longest 14' slides, 7' tube slides, and 7' open spiral slides are easy to add. You can also enclose a Loft XL with a cabin package for added play value.

Kitchenette

We are really excited to share our new kitchenette! The wooden cabinet can be installed in any lower playhouse or upper fort, and it includes lots of fun food toys. The best feature is our electronic stove top with moving blender, sizzling frying pan, and boiling pot.

Summit Outlook Cabin Package

Cabin Packages turn any XL fort space into a cabin in the woods, complete with double-doors, windows with screens, and a cozy enclosed feeling.

Summit Outlook Loft

The Loft is a 5' x 4' play space on top of the ultimate climber. This value oriented, high-in-the-sky fort is a perfect option for adding 14' slides, 7' tube slides, or 7' open spiral slides to any Summit Outlook playset.

Summit Outlook Loft Porch

The Loft Porch extends the play space of a Loft XL or a Loft, adding an additional 3' x 5' play area. The Loft Porch is also designed for all three types of slides, and pairs nicely with the Loft XL and Cabin Package.

Adventure Outlook 1

- Trapeze Bar
- Playhouse
- Side Table with Roof
- 6' Rock Wall XL
- 12' Rocket Slide

Exclusive Hybrid Playsets

As you continue to browse through our catalog, you will see several examples of hybrid playsets. Wooden playsets are traditionally made with either square base structures or angled base structures. Vertical structures are best for playhouses, picnic tables, and sandboxes, while angled structures are usually paired with tire swivel swings.

We decided you shouldn't have to choose between one style or the other because children love both. Hence, our exclusively designed, hybrid playsets are game changers with both square base and angled base forts combined into one amazing play system. Backyard Adventures hybrid playsets are totally unique, loaded with value, and made to fit almost any backyard, budget, or family wish list.

Adventure Outlook XL 3

PLAYSET SHOWN WITH:

Backyard Swing Sets & Backyard Playsets

TREEHOUSE

Treehouse wooden swing sets are the most customizable backyard swing sets available. They are constructed with the highest quality materials and designs, and come standard with our limited lifetime warranty. Treehouse play sets are made for parents and children to play together. Treehouse play structures can be combined to create multi-level forts for children of all ages.

[Shop Treehouse Swing Sets](#)

PEAK

Peak backyard playsets are modular in design and come standard with our most popular features like rock walls and tire swivel swings. Peak swing sets are premium quality and covered by our limited lifetime warranty. Peak forts are made for parents and children to play together on the largest play systems we make! Peak structures are perfect for the tallest! Loft with large tube slides and giant swings!

[Shop Peak Swing Sets](#)

OUTLOOK

Outlook swing sets are high quality, modular play systems designed for children of all ages. Outlook backyard playsets can be custom designed with a single fort or multiple play areas. The all new hybrid style Outlook has both a lower playhouse and a tire swivel swing, which is a Backyard Adventures exclusive design. Outlook swing sets are covered by our limited lifetime warranty.

[Shop Outlook Swing Sets](#)

SUMMIT

Summit wooden swing sets are made with high quality materials and construction so children of all ages can climb, swing, and slide. Summit backyard playsets are covered by our limited lifetime warranty and include our most popular features like rock walls and the swivel swings. The two-toned stain creates a beautiful combination of natural cedar wood with endless fun in any back yard.

[Shop Summit Swing Sets](#)

HYBRID/BRIDGED STRUCTURES

Hybrid and bridged playsets include the most unique swing set designs available! A hybrid structure combines the two basic styles of swing sets into one system so your family can enjoy a playhouse or picnic table right next to a tire swivel swing. Bridged swing sets are built with the 8' long Adventure Bridge and/or the unique Triangle Bridge combining two or more fort structures into limitless designs.

[Shop Hybrid/Bridged Swing Sets](#)

SPACE SAVERS

Space Saver playsets may be smaller, but they don't have to compromise on play value! Most of the same features and accessories used in larger playsets are available in a more compact design. Space saving swing sets can include rock walls, picnic tables, gang planks, and sandboxes without increasing the space requirements. These playsets fit in almost any back yard.

Ecommerce Website

backyardadventures.com

We hope you will visit our industry leading website, intentionally designed for how you like to shop. We invite you to register for an account at backyardadventures.com where you can see all playsets with prices that include delivery to your home, and in most areas, prices include installation.

At backyardadventures.com, you will enjoy the most innovative online shopping experience for playset products. Our website is fully integrated with our dealer stores so you will have a seamless experience between visiting the showroom and shopping from home.

3D Playset Designer

design.backyardadventures.com

We are excited for you to use our 3D playset designer to create your dream playset. You can use our playset designer by clicking the Customize button on any product page. Our dealers can also help you design the perfect playset while visiting their stores, or you can design from home and share your designs with your local dealer. Either way, it's always best to contact your local dealer for professional help and to understand their installation schedule.

If you do not have a local dealer, please contact us directly so one of our playset designers can assist you. Thank you for considering Backyard Adventures in your search for the perfect backyard swing set!

Classic Best of Backyard Adventures

1 Wood – Backyard Adventures uses all cedar wood, a premium lumber for outdoor use. Our cedar is free of toxic chemicals and certified to meet and exceed all ASTM standards for playset construction materials. Our lumber suppliers practice sustainable forestry to ensure long-term renew-ability and a healthy environment. Our cedar is superior in strength and durability so your playset will last longer. Cedar is naturally resistant to bug infestation, rot, and decay.

2 Flex walls – Our flex walls represent Backyard Adventures' commitment to innovation and simplicity. Now you can easily add accessories anytime by simply removing a flex wall panel to create an activity zone.

3 Compression clamps – The key structure joints on our Treehouse Series and many accessories are secured with compression clamps for incredible strength. Our compression clamps have tested twice as strong as traditional bolt-through joints. The 90 degree and in-line compression clamps ensure a strong and rigid playset.

4 Floors – Our playset floors are built just like your house! The floor joists, shear hangers, and recessed floor design create a solid footing. Our floors are noticeably stronger, ensuring safe play for years to come.

5 Steel swing supports – The steel top plate and side strips are additional safety features against board failure. At Backyard Adventures, your family's safety is always our top priority.

6 Thick chains – Our exclusive ¼" powder-coated chains are noticeably thicker and stronger.

7 Safe slides – Our exclusive Rocket Slide is intelligently designed with high side walls and a safe exit so even your younger children can slide with confidence.

8 Marine rope (no splintering) – Our rope is marine grade for outdoor use. It does not splinter like cheaper ropes so little hands always have a secure, soft grip.

9 Adjustable height swing beams, monkey bars, and forts (Peak Series) – Our playsets are designed for relatively un-level backyards. We offer many features that adjust to fit the unique contours of your landscape.

10 Heavy duty swing hangers – Our commercial grade ductile swing hangers are the strongest swing hangers used on backyard playsets.

11 High quality stain – Our premium stain enhances the natural beauty of cedar and protects it from the elements.

12 Safety grip chains – The chains on our belt swings, infant swings, and toddler buckets are specifically designed for smaller hands with a comfortable rubber coating.

13 Quarry Climbers – These incredible rock climbing holds were hand sculpted by professional rock climbers. Quarry Climbers can be rotated to change the climbing experience as your children get older.

14 Arched walls – Arched walls make entering a playset easier and create a safer play area by not leaving our forts wide open.

15 Grab handles – Grab handles are strategically placed around the playset to ensure a safe play experience for your children.

• **Dealer service** – Your local dealer is the most valuable asset when choosing a playset for your family. Their friendly staff members are product experts, trained to teach you the most relevant information about selecting a backyard playset. Visiting a dealer is fun for the whole family, so take your kids and experience all Backyard Adventures has to offer.

• **Modular designs** – Backyard Adventures playsets are the most modular designs available. Visit your local dealer showroom to create a customized playset that's perfect for your family, backyard, and budget.

• **Best warranty** – Backyard Adventures warranties lead the industry in providing total customer satisfaction. We stand behind every playset we put our name on so you can be confident in your choice to own a Backyard Adventures playset.

• **Space savers** – Our space saving playsets and features create the most play value in small spaces. Ask your local dealer to design a space saving playset for your side yard or corner play space.

• **Flat ladder steps and hand rails** – All ladders are standard with flat steps and hand rails. This is always the safest way into a fort structure for children of all ages.

Classic Treehouse Series

For more than 35 years, our Treehouse playsets have been providing families with loads of delightful outdoor opportunities for creativity, adventure, imagination, socialization and plain old fun!

Fresh air activities are right outside your door with The Backyard Adventures Treehouse Series. Give your kid's video game thumbs a rest, get 'em off the couch, and into the yard. Keep an eye on everything from indoors, or go on out and join in their excitement as they explore, discover, learn and grow.

Let their imaginations soar as they create a fort, a pirate ship, a flying car, a vehicle for exploring other galaxies or, well, nearly anything your kids dream up. These beautifully designed and engineered playsets are guaranteed to produce smiles and laughter, plus give your kids the outdoor exercise and fun they need.

After all, play is a child's work. Help them do their job!

- Totally modular
- Highest quality materials & construction
- Vertical upright design
- Deck heights 5', 6', 7', 7.5' and 8.5'
- Swing heights 8', 9' and 10'
- Slide lengths 10', 12' and 14'
- Connect more than one Treehouse with a Bridge

Classic Treehouse Base Fort Lineup

Climb! Hide 'n Go Seek! Make believe! A Treehouse playset is something that can grow as your children grow. You'll enjoy the possibilities creating a custom Treehouse with virtually endless possibilities for fun and adventure! And your kids will love their new "home" of their own!

Titan Treehouse Jumbo
Deck: 64" x 64" or Over 28 sq. ft.

Classic Space Savers

Over the years, hundreds of parents have told us that as much as they'd love a new Backyard Adventures playset, their yards were just too restrictive to accommodate a fort, swing beam, slide, and accessories. So this year, we're highlighting our most popular configurations designed exclusively for smaller spaces.

For example, the Adventure Treehouse Jumbo with 2 Position Accessory Arm is loaded with fun activities and perfect for a corner yard location. These playsets have all the same quality and safety features as any other Treehouse design.

Space Saver playsets may be smaller, but they don't compromise play value! Together with your local Backyard Adventures dealer, you can create many playset configurations with the same features and accessories of our regular sized sets in a more compact design. You can add rock walls, picnic tables, or sandboxes without increasing the space requirements.

Space Savers will fit in almost any yard, and still leave room for the surrounding safe area around the playset. Visit your local Backyard Adventures dealer to learn about the ultimate space-saving flexibility of our compact playsets and accessories!

The Free-Standing Swing Set will fit in almost any yard when you cannot fit a traditional fort and swing beam combination in the same space. It is 8' tall just like our fort swing beams and has room for three swing accessories. Visit your local Backyard Adventures dealer to learn about the ultimate space-saving flexibility of our compact playsets and accessories!

Visit backyardadventures.com

We hope you will visit our industry leading website, intentionally designed for how you like to shop. We invite you to register for an account at backyardadventures.com where you can see all playsets with prices that include delivery to your home, and in most areas, prices include installation.

At backyardadventures.com, you will enjoy the most innovative online shopping experience for playset products. Our website is fully integrated with our dealer stores so you will have a seamless experience between visiting the showroom and shopping from home.

We are excited for you to use our 3D playset designer to create your dream playset. You can use our playset designer by clicking the Customize button on any product page. Our dealers can also help you design the perfect playset while visiting their stores, or you can design from home and share your designs with your local dealer. Either way, it's always best to contact your local dealer for professional help and to understand their installation schedule.

If you do not have a local dealer, please contact us directly so one of our playset designers can assist you. Thank you for considering Backyard Adventures in your search for the perfect backyard swing set!

Classic Adventure Bridge

The Adventure Bridge is more than just a connection point for two or more playsets; it's a play area in and of itself. The Adventure Bridge is a perfect place for a ship's wheel, binoculars, telescope, periscope and of course, endless imagination. And the large area underneath the Adventure Bridge is designed for a tire swivel swing.

With the all new Adventure Bridge, you can add up to six additional accessories to the flex walls. This means you can add slides, a rock wall, gang plank, fireman's pole, or more accessories to either side of the bridge. Only Backyard Adventures has a bridge with so much flexibility. The combinations of our Treehouse Series and Peak Series playsets with the Adventure Bridge are endless!

Note: The points of connection for the two playsets must have the same deck height, and design considerations may affect the point at which your two playsets are attached.

Classic Triangle Bridge

The totally unique Triangle Bridge is a Backyard Adventures exclusive. You are no longer limited to 90 degree angles for your forts and accessories. The Triangle Bridge attaches two Treehouse forts at the corners and makes a 45 degree play area for additional accessories.

The 45 degree angle also creates many new space saving opportunities. You can connect a longer slide to one of the Treehouse forts with less space by attaching the slide so that it travels along the back side of the other fort. The Triangle Bridge possibilities are limitless!

Add slides, a gang plank, fireman's pole, or an extra ladder to the flex walls on the Triangle Bridge. Talk to your local dealer about how you can use the Triangle Bridge to design a combo playset for your backyard.

Note: The points of connection for the two playsets must have a 1 foot difference in the two deck heights, and design considerations may affect the point at which your two playsets are attached.

Classic Treehouse Triangle Bridge Combo Playset

Check out this all new Treehouse combo play system with the Backyard Adventures exclusive Triangle Bridge! The 45 degree triangle bridge creates many new space saving opportunities and is a low cost option for connecting two or more fort structures. Longer slides and ramps can fit in smaller yards when they are connected to the 45 degree triangle bridge. As always, this playset is fully customizable by visiting the playset designer at <https://design.backyardadventures.com>.

Classic Treehouse & Peak Combo Playset

This is the whole nine yards! Okay, it's not actually nine yards; it's just one – yours! But when you combine Treehouse and Peak forts, you'll create a backyard playset that will afford healthy, constructive fun for hours, days, years. The Adventure Bridge can connect two Treehouses, two Peaks, or one of each. You can customize this combo playset in our new Backyard Adventures Playset Designer, and your local dealer will be glad to help in creating the ultimate dream playset. There are no limits to what you can create with a Backyard Adventures playset!

Classic Peak Series

Got a yard that's uneven? Hey, no problem! We've built this one with a "level" head, just for your backyard needs. With all the best features of our angled upright units, the Backyard Adventures Peak Series is specially designed to adjust for relatively un-level yards. Whether you choose the Peak Junior (5.5' x 5.5' deck space) or Peak Jumbo (7.5' x 5.5' deck space) with gigantic triple activity wall, your back yard will be the neighborhood hot spot!

- Modular design
- Tarp and Wood Roof options
- Highest quality construction
- Angled upright design
- Deck heights 5', 6', 7', 7.5' and 8.5'
- Swing heights 8', 9' and 10'
- Slide lengths 10', 12' and 14'

Yes! We know kids. And kids love to climb! So we've stocked every Peak series playset with our most popular and super-cool climbing options: rock wall, chain ladder/flat-step ladder combo, and accessory arm with rope ladder. You also get a tire swivel swing and an accessory arm with trapeze bar with every Peak fort. Make it even more kid-cool, by customizing it with swing beams, slides, monkey bars and a loft. Ready for takeoff! Zoom!

Pssst! Here are a few other adult-friendly features you're gonna love. The New Peak Series is an exclusive combination of play value, quality, reliability and fun. Your dealer can help you design a set that's perfect for your space, family and budget.

Classic Peak Structural Features

The Peak Series forts are architecturally designed to be virtually immovable, with a combination of superior structural features that make them rock solid:

- Triple lock joints for ultimate stability
- Double locking gussets between legs, floor supports and roof supports bind the mid-section to the base
- Post and beam floor joist system unmatched in strength and weight bearing capacity

Ask about our recessed floor design for a seamless transition between the inside and outside of the play area.

Un-Level Yard Installation

Backyard Adventures dealers are experts at designing our swing sets to fit almost any backyard layout. The creative playset designers at your local store will take the time to understand the unique features of your play area, and they will work with you to create the perfect backyard playground for your family.

Backyard Adventures dealers have perfected the art of custom playset design, and here you can see a few examples of their creativity. Our dealers can order special fort uprights in various lengths to create amazing play systems for the most unique settings.

If you feel your backyard is not suited for a premium play system, contact your local Backyard Adventures dealer before you decide on compromising with a smaller or lower quality swing set. You might just be surprised what one of our authorized Backyard Adventures dealers can do for your family and your backyard!

*Additional fees may apply for un-level yard installations.

Safety & Maintenance

Choose the most sensible ground cover for your dedicated play area.

You have many options when it comes to ground cover; to name a few, wood chips, sand, pea-gravel, or rubber mulch. You may also choose to install your swing set directly on the grass or artificial turf. (Although grass is not the ideal cover for the safest play, it is common.) An absolute no-no is to place your playset over concrete or asphalt, regardless of whether or not you add any of the above listed ground covers.

Take care of your playset just like any other big investment.

Periodic tightening of nuts and bolts will ensure the safety of your children while at play. In addition, an annual “tune-up” for your swing set is highly recommended. Please contact your local dealer to inquire about their service program, which may include a complete safety check, playset cleaning, light sanding where needed, hardware tightening and last but not least, an application of Backyard Adventures original stain. By doing so, your investment is sure to last a lifetime!

Authorized Backyard Adventures dealers ... priceless.

Our Dealers are there for YOU! They are ready and to help you make the perfect choice when it comes to choosing your swing set, play area location, installation, or ground cover. After you purchase your playset, your local dealer is just a call away to assist you in adding additional fun accessories or helping you maintain the luster of your playset. You can always purchase Backyard Adventures Wood Glow stain at your local dealer store. They can even move or assist you in moving your wooden swing set to a different location if necessary. We are proud of our Dealer network and know you will be as well.

BACKYARD ADVENTURES LIMITED WARRANTY FOR TREEHOUSE, PEAK, AND SUMMIT OUTLOOK SERIES BRANDS

This Limited Warranty applies to products manufactured by or on behalf of BACKYARD ADVENTURES®, Inc. under the Treehouse™ Series, Peak™ Series, Summit Outlook™ Series.

All above ground wood components, Rocket Slides™, powder-coated steel components, and hardware are covered by a Limited Lifetime Warranty, that is, they are warranted for so long as the original owner owns such parts, accessories and components against rot and decay or defects in workmanship and materials that affect the structural integrity of the parts, accessories, and components. In the event of any rot, decay or defect during the period, BACKYARD ADVENTURES® will remedy the defect as described herein, without charge to the purchaser for parts, as soon as practical. The remedy will consist of repair or replacement of the product, or refund of the purchase price, at the discretion of BACKYARD ADVENTURES® after opportunity to inspect the alleged defect or photographs thereof. However, BACKYARD ADVENTURES® will not elect to refund the purchase price unless it is unable to provide a replacement, and repair is not commercially practicable or cannot be made within a reasonable time. All freight and labor charges will be the responsibility of the purchaser.

BACKYARD ADVENTURES®, Inc. warrants that this product will be free from defects in materials and workmanship for a period of five (5) years from the original date of purchase. This five (5) year warranty covers all parts not mentioned in the above Limited Lifetime Warranty. In the event of any such defect during the five-year warranty period, BACKYARD ADVENTURES® will remedy the defect as described herein, without charge to the purchaser for parts, as soon as practical. The remedy will consist of repair or replacement of the product, or refund of the purchase price, at the discretion of BACKYARD ADVENTURES® after opportunity to inspect the alleged defect or photographs thereof. However, BACKYARD ADVENTURES® will not elect to refund the purchase price unless it is unable to provide a replacement, and repair is not commercially practicable or cannot be made within a reasonable time. All freight and labor charges will be the responsibility of the purchaser.

In addition, within the first 30 days from date of purchase, BACKYARD ADVENTURES® will replace any parts found to be missing from or damaged in the original packaging. This warranty applies to the original owner and registrant only and is non-transferable. Regular maintenance is required to assure maximum life and performance of this product and failure by the owner to maintain the product according to the maintenance requirements may void this warranty. Maintenance guidelines are provided in the Owner's Manual.

This Limited Warranty does not cover:

- Labor for any inspection.
- Labor for replacement of any defective item(s).
- Incidental or consequential damages.
- Cosmetic defects which do not affect performance or integrity of a part or the entire product cosmetic flaws occurring under

normal use, such as surface scratches, minor chips, hairline cracks, dents, marring, efflorescence, color fade, discoloration, corrosion/rust, fraying, or warping.

- Wood buried below ground level.
- Products to which non-Backyard Adventure parts have been added or substituted.
- Damage due to environmental factors (such as wind-blown sand, salt spray, or airborne emissions from industrial sources).
- Vandalism, improper use, failure due to loading or use beyond the capacities stated in the applicable Assembly Manual.
- Acts of nature including but not limited to wind, storms, sandstorms, lightning, tornadoes, earthquakes, hail, floods, excessive water exposure.
- Improper installation including but not limited to failure by the installer to follow all instructions, guides or directions, or failure to use the appropriate Concrete Anchoring Kit.
- Installation on uneven, un-level, or soft ground.
- Minor twisting, warping, checking, or any other natural occurring properties of wood that do not affect performance or integrity.
- Freight and/or shipping costs for replacement parts.

Backyard Adventures does not warrant that any color will be available for any specific period, and reserves the right, in its sole discretion, to discontinue any color for any reason.

BACKYARD ADVENTURES® products have been designed for safety and quality. Any modifications made to the original product could damage the structural integrity of the unit leading to failure and possible injury. Modification of the original product voids any and all warranties and BACKYARD ADVENTURES® assumes no liability for any modified products or consequences resulting from failure of a modified product.

These Limited Warranties apply to play sets purchased for and/or used in RESIDENTIAL USE ONLY.

Under no circumstance should a BACKYARD ADVENTURES® Summit Outlook™ Series product be used in public settings such as schools, churches, playgrounds, parks, day cares and the like. Such use may lead to product failure and potential injury. Any and all public use will void this warranty. Backyard Adventures® disclaims all other representations and warranties of any kind, expressed or implied. This Warranty gives you specific legal rights. You may have other rights as well which vary from state to state or province to province. This warranty excludes all consequential damages; however, some states do not allow the limitation or exclusion of consequential damages and therefore this limitation may not apply to you.

BACKYARD ADVENTURES LIMITED WARRANTY FOR DEALER PRIVATE LABEL PRODUCTS

This Limited Warranty by BACKYARD ADVENTURES® applies to products manufactured and sold to Dealers that are intended for private label use (i.e. Grand Series™ products). All above ground wood components, Rocket Slides™, powder-coated steel components, and hardware are warranted for ten (10) years from the original date of purchase against rot and decay or defects in workmanship and materials that affect the structural integrity of the parts, accessories, and components. In the event of any rot, decay or defect during the ten-year warranty period, BACKYARD ADVENTURES® will remedy the defect as described herein, without charge to the purchaser for parts, as soon as practical. The remedy will consist of repair or replacement of the product, or refund of the purchase price, at the discretion of BACKYARD ADVENTURES® after opportunity to inspect the alleged defect or photographs thereof. However, BACKYARD ADVENTURES® will not elect to refund the purchase price unless it is unable to provide a replacement, and repair is not commercially practicable or cannot be made within a reasonable time. All freight and labor charges will be the responsibility of the purchaser.

BACKYARD ADVENTURES®, Inc. warrants that this product will be free from defect in materials and workmanship for a period of two (2) years from the original date of purchase. This two (2) year warranty covers all parts not mentioned in the above ten (10) year warranty. In the event of any such defect during the two-year warranty period, BACKYARD ADVENTURES® will remedy the defect as described herein, without charge to the purchaser for parts, as soon as practical. The remedy will consist of repair or replacement of the product, or refund of the purchase price, at the discretion of BACKYARD ADVENTURES® after opportunity to inspect the alleged defect or photographs thereof. However, BACKYARD ADVENTURES® will not elect to refund the purchase price unless it is unable to provide a replacement, and repair is not commercially practicable or cannot be made within a reasonable time. All freight and labor charges will be the responsibility of the purchaser.

In addition, within the first 30 days from date of purchase, BACKYARD ADVENTURES® will replace any parts found to be missing from or damaged in the original packaging. This warranty applies to the original owner and registrant only and is non-transferable. Regular maintenance is required to assure maximum life and performance of this product and failure by the owner to maintain the product according to the maintenance requirements may void this warranty. Maintenance guidelines are provided in the Owner's Manual.

This Limited Warranty does not cover:

- Labor for any inspection.
- Labor for replacement of any defective item(s).
- Incidental or consequential damages.
- Cosmetic defects which do not affect performance or integrity of a part or the entire product cosmetic flaws occurring under normal use, such as surface scratches, minor chips, hairline cracks, dents, marring, efflorescence, color fade, discoloration, corrosion/rust,

fraying, or warping.

- Wood buried below ground level.
- Products to which non-Backyard Adventure parts have been added or substituted.
- Damage due to environmental factors (such as wind-blown sand, salt spray, or airborne emissions from industrial sources).
- Vandalism, improper use, failure due to loading or use beyond the capacities stated in the applicable Assembly Manual.
- Acts of nature including but not limited to wind, storms, sandstorms, lightning, tornadoes, earthquakes, hail, floods, excessive water exposure.
- Improper installation including but not limited to failure by the installer to follow all instructions, guides or directions, or failure to use the appropriate Concrete Anchoring Kit.
- Installation on uneven, un-level, or soft ground.
- Minor twisting, warping, checking, or any other natural occurring properties of wood that do not affect performance or integrity.
- Freight and/or shipping costs for replacement parts.

Backyard Adventures does not warrant that any color will be available for any specific period, and reserves the right, in its sole discretion, to discontinue any color for any reason.

BACKYARD ADVENTURES® products have been designed for safety and quality. Any modifications made to the original product could damage the structural integrity of the unit leading to failure and possible injury. Modification of the original product voids any and all warranties and BACKYARD ADVENTURES® assumes no liability for any modified products or consequences resulting from failure of a modified product.

This product is warranted for RESIDENTIAL USE ONLY. Under no circumstance should a BACKYARD ADVENTURES® private label product be used in public settings such as schools, churches, playgrounds, parks, day cares and the like. Such use may lead to product failure and potential injury. Any and all public use will void this warranty. Backyard Adventures® disclaims all other representations and warranties of any kind, expressed or implied.

This Warranty gives you specific legal rights. You may have other rights as well which vary from state to state or province to province. This warranty excludes all consequential damages; however, some states do not allow the limitation or exclusion of consequential damages and therefore this limitation may not apply to you.

Backyard Adventures Limited Non-Residential Use One Year Limited Warranty and Limited Non-Residential Requirements

This Limited Warranty and Limited Non-Residential Requirements by Backyard Adventures applies to playset products: (i) manufactured under the Treehouse® series and Peak® series brands (collectively the “Brands”); (ii) purchased by the ultimate consumer entity from an authorized dealer of the Brands; (iii) installed by that dealer or a contractor engaged by such authorized dealer and such installation includes compliance with Backyard Adventures installation information, guides and directions, using an approved Concrete Anchoring Kit; (iv) installed in a location that is not accessible to the general public (such access only available to participants of the consumer entity programs); (v) where all use of the playsets by such participants is supervised by a responsible adult, and (vi) where the installation and use of the playsets are in compliance with all applicable laws, regulations and ordinances, including but not limited to permitting, inspection, and limitation of number of users, if any; (vii) designed without an attached swing beam or swing accessories of any kind.

Backyard Adventures warrants that for a period of one year from the purchase date of the product from the dealer, (i) all wood, hardware, swings, slides, and accessories are free from defect in materials and workmanship, and (ii) all above ground wood parts are free from rot and decay. Refer to the schedule below for charges associated with replacement of parts under this Limited Warranty. In addition, Backyard Adventures will replace any parts within the first 30 days from date of purchase found to be missing from or damaged in the original packaging.

This warranty applies to the original owner and registrant and is non-transferable. Regular maintenance is required to assure maximum life and performance of this product and failure by the owner to maintain the product according to the maintenance requirements may void this warranty. Maintenance guidelines are provided in the Owner's Manual.

This Limited Warranty does not cover:

- Labor for any inspection.
- Labor for replacement of any defective item(s).
- Incidental or consequential damages.
- Cosmetic defects which do not affect performance or integrity of a part or the entire product cosmetic flaws occurring under normal use, such as surface scratches, minor chips, hairline cracks, dents, marring, efflorescence, color fade, discoloration, corrosion/rust, fraying, or warping.
- Wood buried below ground level.
- Products to which non-Backyard Adventure parts have been added or substituted.
- Damage due to environmental factors (such as wind-blown sand, salt spray, or airborne emissions from industrial sources).
- Vandalism, improper use, failure due to loading or use beyond the capacities stated in the applicable Assembly Manual.
- Acts of nature including but not limited to wind, storms, sandstorms, lightning, tornadoes, earthquakes, hail, floods, excessive water exposure.
- Improper installation including but not limited to failure by the installer to follow all instructions, guides or directions, or failure to use the appropriate Concrete Anchoring Kit.

- Installation on uneven, un-level, or soft ground.
- Minor twisting, warping, checking, or any other natural occurring properties of wood that do not affect performance or integrity.
- Freight and/or shipping costs for replacement parts.

Backyard Adventures does not warrant that any color will be available for any specific period, and reserves the right, in its sole discretion, to discontinue any color for any reason.

Backyard Adventures products have been designed for safety and quality. Any modifications made to the original product could damage the structural integrity of the unit leading to failure and possible injury. Modification voids any and all warranties and Backyard Adventures assumes no liability for any modified products or consequences resulting from failure of a modified product.

This product is warranted for RESIDENTIAL AND LIMITED NON-RESIDENTIAL USE ONLY. Limited Non-Residential Use is defined as installation and use by home day care facilities, churches, pre-schools with a limited student population. Backyard Adventures reserves the right to approve additional light commercial settings on a case by case basis. Under no circumstances should a Brand playset be installed and used in an unsupervised, public settings such as schools, churches, playgrounds, parks, day care centers and the like where there is more than a limited student population or any of the other conditions set forth in this Limited Warranty are not strictly adhered to. Use in a prohibited setting may lead to product failure and potential injury. Any and all public use in a prohibited setting will void this warranty. Backyard Adventures disclaims all other representations and warranties of any kind, express or implied.

This Limited Warranty does not apply to any Backyard Adventures playsets or products other than the specified Brands or to any product whatsoever purchased from any source other than an authorized dealer of Backyard Adventures.

This Limited Warranty gives you specific legal rights. You may have other rights as well which vary from state to state or province to province. This warranty excludes all consequential damages, however, some states do not allow the limitation or exclusion of consequential damages and therefore this limitation may not apply to you.

To make a Warranty claim, send complete information regarding any product defect, including: (i) a copy of the original receipt for purchase, (ii) acceptance of installation documentation, (iii) a description, including pictures wherever possible, describing, defining and showing such defect. Such information should be sent to:
